- (g) display at least one award based on at least one selection outcome associated with one of the picked selections.

Claim 2 (cancelled).

Claim 3 (currently amended): The gaming device of Claim 1, wherein at the type of a plurality of the selection outcomes are is based on the amount wagered per payline in the base game.

Claim 4 (currently amended): The gaming device of Claim 1, wherein the type of selection outcome associated with at least one of the selections includes is an activation of a secondary display device.

Claim 5 (original): The gaming device of Claim 4, wherein the secondary display device includes a symbol generator.

Claim 6 (original): The gaming device of Claim 5, wherein at least one symbol generated by the symbol generator is a product award symbol.

Claim 7 (original): The gaming device of Claim 6, wherein a product award is provided to the player if a predetermined number of product award symbols is generated by the symbol generator.

Claim 8 (original): The gaming device of Claim 7, wherein if less than the predetermined number of product award symbols is generated by the symbol generator, a different award is provided to the player.

Claim 9 (original): The gaming device of Claim 5, wherein the symbol generator includes a plurality of reels.

Claim 10 (currently amended): The gaming device of Claim 4, wherein the type of a designated number of selection outcomes associated with the selections includes is the activation of the secondary display device if a designated wager is made in the game.

Claim 11 (previously presented): The gaming device of Claim 1, wherein a designated number of selection outcomes are associated with the selections if a designated wager is made in the base game.

Claim 12 (currently amended): A gaming device comprising:
at least one display device;
at least one input device; and
at least one processor configured to operate with the at least one display device and the at least one input device to:

- (a) display a base game operable upon a wager by a player;
 - (b) display an outcome for the base game;
 - (c) determine if a triggering event occurred in the outcome of the base game;
 - (d) if the triggering event occurred in the outcome of the base game, initiate a bonus game including at least two of a plurality of player-selectable selections associated with a play of the bonus game;
 - (e) enable the player to pick a designated number of the selections, wherein the designated number of picks of the selections is, at least in part, based on the amount of credits wagered on each of a plurality of paylines in the base game, said designated number being at least one, and wherein different designated numbers of picks of the selections are based on different wager amounts for the plurality of paylines in the base game;
 - (f) for each picked selection, determine a selection outcome from a plurality of selection outcomes including at least two different types of selection outcomes to associate with the selection, wherein ~~at least one of the type of selection outcomes of at least one of the plurality of selections outcomes includes is an activating~~activation of a symbol generator if at least a designated amount is wagered on the base game;
 - (g) display an award associated with at least one of the selection outcomes;
- and

(h) provide a jackpot award to the player if a plurality of jackpot award symbols are generated by the symbol generator.

Claim 13 (cancelled).

Claim 14 (original): The gaming device of Claim 12, which includes a plurality of awards, wherein each said award is associated with one of the plurality of selection outcomes.

Claim 15 (currently amended): The gaming device of Claim 14, wherein the type of selection outcomes associated with the plurality of selections include-is only credit values if the player wagers less than a predetermined amount in the base game.

Claim 16 (original): The gaming device of Claim 12, wherein the symbol generator includes a plurality of reels.

Claim 17 (currently amended): The gaming device of Claim 16, wherein the type of selection outcomes associated with the plurality of selections which includecauses the activatingactivation of a symbol generator includes causing an activatingactivation of the plurality of reels if the player wagers a predetermined amount in the base game.

Claim 18 (original): The gaming device of Claim 12, wherein the jackpot award is provided to the player only if the jackpot award symbols are generated by the symbol generator.

Claim 19 (original): The gaming device of Claim 12, which includes a modifier associated with at least one of the jackpot award symbols if at least one, but not all, of said jackpot award symbols is generated by the symbol generator.

Claim 20 (original): The gaming device of Claim 19, wherein the modifier includes a multiplier.

Claim 21 (original): The gaming device of Claim 12, wherein the jackpot award includes a product award, wherein said product award is provided to the player if the jackpot award symbols are generated by the symbol generator.

Claims 22 to 26 (cancelled).

Claim 27 (currently amended): A method of operating a gaming device, said method comprising:

- (a) enabling a player to make a wager on a base game;
- (b) displaying an outcome for the base game;
- (c) determining if a triggering event occurred in the outcome of the base game;
- (d) if a triggering event occurred in the outcome of the base game, displaying at least two of a plurality of player-selectable selections associated with a bonus game;
- (e) enabling the player to pick a designated number of the selections, wherein the designated number of picks of the selections is based, at least in part, on the amount of credits wagered on each of a plurality of paylines in the base game, said designated number being at least one, and wherein different designated numbers of picks of the selections are based on different wager amounts for the plurality of paylines in the base game;
- (f) for each picked selection, associating a selection outcome from a plurality of selection outcomes including at least two different types of selection outcomes with the selection, wherein one of the types of selection outcomes is a value and one of the types of selection outcomes is not a value, and wherein the type of at least one of the selection outcomes is based on the amount of credits wagered on each of the plurality of paylines in the base game; and
- (g) providing an award to the player based on at least one of the selection outcomes associated with the picked selections.

Claim 28 (cancelled).

Claim 29 (previously presented): The method of Claim 27, which includes associating a plurality of selection outcomes with the selections, wherein the selection outcomes are based on the amount wagered per payline in the base game.

Claim 30 (currently amended): The method of Claim 27, wherein the type of selection outcome associated with the picked selection includes ~~is an~~ activating activation of a secondary display device.

Claim 31 (currently amended): The method of Claim 30, wherein the ~~selection outcome associated with the picked selection includes activation of the secondary display device includes~~ generating at least one symbol on the secondary display device by a symbol generator.

Claim 32 (original): A method of Claim 31, which includes providing the player a product award if a predetermined number of product award symbols is generated by the symbol generator.

Claim 33 (original): The method of Claim 32, which includes associating a different award with each product award symbol if less than the predetermined number of product award symbols is generated by the symbol generator.

Claim 34 (original): The method of Claim 31, wherein the symbol generator includes a plurality of reels.

Claim 35 (previously presented): The method of Claim 30, which includes associating the activation of the secondary display device with a designated number of selection outcomes associated with the selections if a designated wager is made in the base game.

Claim 36 (previously presented): The method of Claim 27, which includes associating a designated number of selection outcomes with the selections if a designated wager is made in the base game.

Claim 37 (previously presented): The method of Claim 27, wherein the steps (a) to (g) are provided through a data network.

Claim 38 (original): The method of Claim 37, wherein the data network is an internet.

Claim 39 (currently amended): A method of operating a gaming device having a base game operable upon a wager by a player, said method comprising the steps of:

- (a) initiating a bonus game;
- (b) displaying at least two of a plurality of player-selectable selections associated with the bonus game;
- (c) enabling the player to pick a designated number of the selections, wherein the designated number of picks of the selections is at least in part based on the amount of credits wagered on each of a plurality of paylines in the base game, said designated number being at least one, and wherein different designated numbers of picks of the selections are based on different wager amounts for the plurality of paylines in the base game;
- (d) for each picked selection, associating a selection outcome from a plurality of selection outcomes including at least two different types of selection outcomes with the selection, wherein the type of selection outcome of at least one of the selection outcomes includes an activatingactivation of a symbol generator if at least a designated amount is wagered on the base game;
- (e) displaying the selection outcome associated with each picked selection;
- (f) activating the symbol generator if the type of selection outcome associated with a picked selection includes the activatingactivation of the symbol generator; and
- (g) providing the player an award based at least in part on the selected selections and on the symbols generated by the symbol generator.

Claim 40 (currently amended): The method of Claim 39, which ~~includes associating wherein the type of selection outcome associated with the plurality of selections is~~ only credit values ~~with the plurality of selections~~ if the player wagers less than a predetermined amount in the base game.

Claim 41 (original): The method of Claim 39, which includes associating a plurality of awards with at least one of the plurality of selection outcomes.

Claim 42 (currently amended): The method of Claim 39, wherein ~~the activating~~activation of the ~~a~~ symbol generator includes activating a plurality of reels if the player wagers a predetermined amount in the base game.

Claim 43 (original): The method of Claim 39, which includes modifying any award generated on the reels if, at least one, but not all, of the product award symbols are generated by the symbol generator.

Claim 44 (original): The method of Claim 39, wherein a predetermined number of said symbols include a product award symbol, wherein a product award is provided to the player if the product award symbols are generated by the symbol generator.

Claim 45 (previously presented): The method of Claim 39, wherein the steps (a) to (g) are provided through a data network.

Claim 46 (original): The method of Claim 45, wherein the data network is an internet.

Claims 47 to 53 (cancelled).
